Small hydro: EMC, ANERT are nodal agencies

The Hindu Bureau
THIRUVANANTHAPURAM

The State government has launched efforts to scale up small hydropower capacity by roping in local bodies and cooperatives. The Energy Management Centre (EMC) and the Agency for New and Renewable Energy Research and Technology (ANERT) will serve as nodal agencies for developing and implementing small hydro projects. They will facilitate all technical approvals related to the projects and coordinate matters related to them, the government has said.
